DIVISION OF SANITARY ENGINEERING

ST. CLAIR COUNTY - Solid Waste Disposal
Sauget/Paul Sauget

Mr. Paul Sauget
2902 Monsanto Avenue
Sauget, Illinois 62206

Dear Mr. Sauget:

On November 25, 1969, a representative of this Department conducted an inspection of your solid waste disposal site located on your property in the 1300 block of Quarry Street, Sauget, Illinois. Our inspector reports that you are operating this site in violation of the Refuse Disposal Law and the Rules and Regulations for Refuse Disposal Sites and Facilities (copies enclosed). The following violations were observed at the time of the inspection:

1. This site has not been registered with or approved by this Department in violation of Rules 1.01 and 1.03.
2. Open dumping is practiced in violation of Rule 3.04.
3. Daily cover of all refuse has not been provided in violation of Rule 5.07a.

You are hereby directed to discontinue the use of this site for the disposal of combustible materials, chemicals and scrap metals. You must also cover all exposed refuse with at least two (2) feet of compacted earth cover.

If it is your intention to use this site to dispose of non-combustible and non-putrescible wastes such as rock, concrete, brick, sand, earth or demolition material, you must obtain a permit from this Department. This is in accordance with Section 24 of the Solid Waste Disposal District Act passed by the 1969 Legislature which is also an amendment to the Refuse Disposal Act of 1965.

A re-inspection of this site will be conducted within thirty (30) days of the date of this letter to determine what action has been taken to cover the exposed refuse.

Very truly yours,

ILLINOIS DEPARTMENT OF PUBLIC HEALTH

Franklin D. Yoder
